New Source Review newspaper advertisements for construction permit applications September 21, 2020. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications will be published on the following dates: September 23, 2020. Public notices are generally published every week. The previous publication of public notices was September 15, 2020.

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 22nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (615) 532-0207. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

They seek to obtain an air contaminant permit (Division identification number 39-0120-01 / 978541) for modification of their secondary containment fiberglass products located at 58 Elliott Power Drive, Lexington, TN 38351. This existing operation consists of one spray booth and associated equipment used to spray fiberglass resin on to parts and equipment associated with the secondary containment systems. Exhaust filters are used for pollution control of particulate matter emissions (PM). The requested modification is for the addition of two spray booths and to increase material input rate. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. Y. Aleali is the assigned Division person.
